

Remarks

Claims 2-10, 12-15 and new Claim 22 are pending in this application. New Claim 22 is a combination of previous Claims 1 and 11. In addition, new Claim 22 includes certain compounds that are present as Examples in the disclosure, but are otherwise outside the scope of definitions for the new claim. Further, within the definitions for R1 and R2, the pictorially represented pyridinyl has been deleted. The pyridinyl moiety was shown as being a tetravalent nitrogen in the pyridinyl ring. The dependency of Claims 2-10, 12, 13 and 15 have been amended for consistency with the presentation of new independent Claim 22. Applicants contend no new matter has been added by new Claim 22 or any of the amendments.

Applicants respectfully request favorable consideration of their invention as claimed.

Respectfully submitted,

/John C. Demeter/
